How to Choose Vocabulary for a Core Vocabulary Board Hybrid Lists

Gail Van Tatenhove took the Benajee lists* and compared them to other lists and to language samples from the devices of augmentative communication users. She came up with the following hybrid lists that she uses in clinical practice. These lists can be used to add new words for language learning and for communication expansion. (*Benajee, M., DiCarlo, C., & Buras-Stricklin, S. (2003) Core Vocabulary Determination for Toddlers.Augmentative and Alternative Communication, 2, 67-73.)

Clinical Application of the Benajee List
